Learn Mathematics Through Math-Teacher Plus

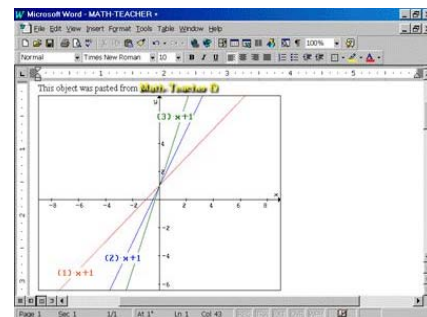

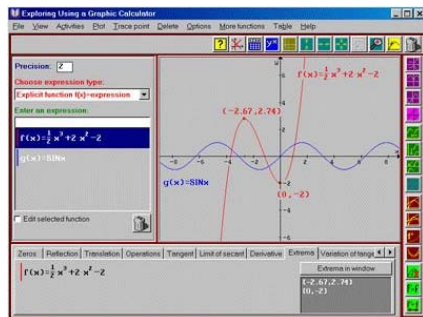

Do your students have a hard time understanding the Mathematics subject you are teaching? Want to find software that can teach Mathematics and monitor the progress of all the classes in your school?

Math-Teacher Plus randomly generates questions on its own and has self-marking capabilities!

Math-Teacher Plus received rave reviews from the California Learning Resource Network (CLRN), California Instructional Technology Clearinghouse, the magazine "Mathematics Teacher", and won the Practical Home schooling Software Reader Awards in 1998!

The features of **Math-Teacher Plus** includes:

- Electronic textbook.
- Guidance and smart hints are given on each step in the solving process.
- Timed online tests.
- Students can view ALL the questions before they begin the online test
- Students can choose what's easiest and work their way up!
- In the network version, the progress of EVERY student in EVERY class in the school is recorded in a central database.
- Automatically prepares tests customized according to topics and difficulty.
- No more copying... because each test is different.
- Rational Calculator.

Please call our Sales Representatives at **6749 3656 / 6749 3681**
for a **FREE Demo**.
